

Product Brochure

At British Fires, we draw inspiration from one of England's most treasured landscapes, the New Forest. This ancient woodland, with its sweeping heathlands, towering oaks, and tranquil glades, serves as the heart and soul of our designs.

From the beginning, the New Forest 1200 Electric Fire set the standard for quality and innovation. Every fireplace we create is a reflection of the natural beauty that surrounds us, combining craftsmanship with patented technology to bring warmth and serenity into your home.

Whether you choose a striking media wall inset, an elegant wall-hung suite, or a contemporary stove, each piece is designed to echo the timeless appeal of nature.

The New Forest itself is a living tapestry of birch, beech, conifers, and oak, shaped by centuries of history and cultivation. It was this rich landscape that inspired our Deluxe Real Log fuel bed setting, bringing the depth and texture of real woodland into every fireplace.

We invite you to explore our collection and discover how the essence of the New Forest can transform your space into a haven of natural beauty and relaxation.

NEW FOREST NATIONAL PARK UNITED KINGDOM

DELUXE REAL LOGS

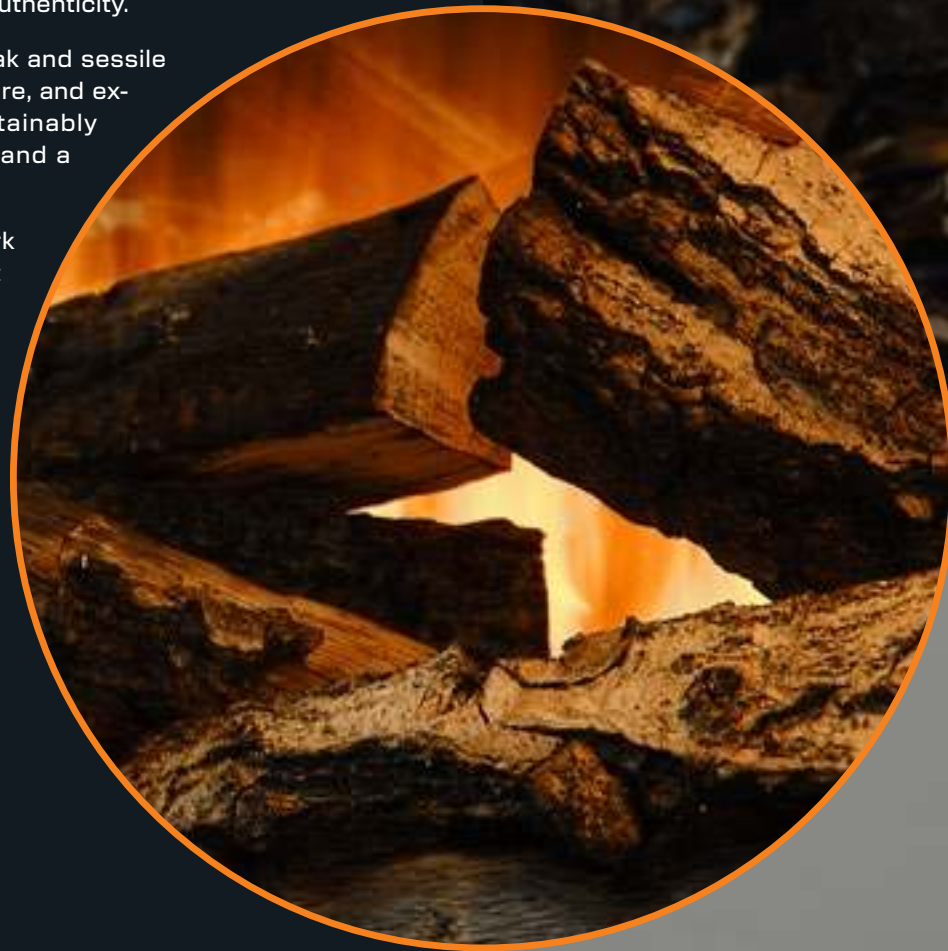

Enhance your fireplace with the Deluxe Real Logs, a fuel bed crafted from carefully selected, sustainably sourced, British oak. Using real logs is the only way to capture the essence of a burning fire, and we've chosen only the finest native hardwood to achieve unmatched authenticity.

Each fuelbed is made with a combination of English oak and sessile oak, both renowned for their distinctive grain, rich texture, and exceptional durability. Our logs are sourced from sustainably managed UK forests, ensuring consistency in quality and a uniquely British Fires aesthetic.

The intricate details of the oak – its natural knots, bark textures, and organic variations – create a fuel bed that feels as close to nature as possible. When paired with our award-winning flame technology, the result is a truly immersive experience.

THE MAKING OF...

Each Deluxe Real Log fuel bed is a testament to expert craftsmanship. Meticulously assembled by skilled log technicians to ensure a strikingly realistic and consistent British Fires style. Using authentic English oak logs, responsibly sourced from UK forests, every set is individually prepared, shaped, and fixed into place to maintain the highest standards of quality and design.

The process begins with a careful selection of logs, each cut and arranged by hand to create the perfect composition for your fireplace. To enhance realism, our technicians scorch and char every log by hand, replicating the natural effect of a wood-burning fire.

The result is a sophisticated, contemporary fireplace that blends luxurious craftsmanship with the unmistakable warmth of real wood that remains flawless over time. Experience the artistry of British Fires – where nature meets precision, and every flame tells a story.

PRODUCT TIERS & UPGRADES

From the sleek Signature to exquisite Deluxe and up to the ultimate, Black Edition. We offer a variety of product upgrades that are desirable for any lifestyle. Additionally, we offer Anti-Reflective Glass for every glass-encased product.

Black Edition

The Black Edition is the ultimate British Fires experience. Our top tier option arrives with our hand-crafted Deluxe Real Logs and enhanced Rear Dark Glass. Together, they deliver a view of minimal in-room reflections, crisp flame visuals, with the real oak logs bringing the outdoor experience indoors.

Rear Dark Glass

Deluxe Real Logs

Deluxe

Choose the Deluxe option and you can be sure to be amazed by the depth created in the fire. The mirrored glass creates the illusion that the flames are coming through the logs, which is truly captivating.

Signature Logs

AR GLASS

Anti-reflective glass is an option available across the entire range that will add an extra special final touch.

The glass comes with a special coating, engineered to be less reflective and unnoticeable. The AR glass sits in front of the log fuel bed, creating an immersive feeling that the logs are in the room.

The flame visuals are more crisp and the colours full of vibrancy, giving an overall sharper effect to the fire.

GUARANTEE

At British Fires we pride ourselves on quality and performance, so much so, that each British Fires electric product is applicable for a 3-year guarantee when purchased from an authorized dealer. Full warranty terms and conditions are available to view at: www.britishfires.com/guarantee

All appliances must be installed in a correctly ventilated space in accordance with the manufacturer's installation instructions and the rules in force. This brochure is for guidance only and is not intended to replace the installation manual, which provides more detailed information. February 2025. British Fires®

New Forest Electric fires are protected by Patent Numbers:
